The diagram illustrates a cross-section of a tube assembly. A green cap is shown on the left, with dimensions G Hex (height), T (thickness), C (inner diameter), and L (length). A white tube is inserted into the cap, with a dimension F Hex (height) indicated. The tube has a threaded section on the right end.

WARNING

Do not mix/interchange **TIKA** products or components not governed by industrial design standards, including **TIKA** tube fitting end connections, with those of other manufacturers.

Safe Product Selection

When selecting a product, the total system design must be considered to ensure safe, trouble-free performance. Function, material compatibility, adequate ratings, proper installation, operation, and maintenance are the responsibilities of the system designer and user.

TIKA
